PROFESSIONAL SUMMARY

Full-stack developer and AI/ML enthusiast pursuing B.Tech in CSE (AIML) at VNR VJIET (CGPA: 8.25). Experienced in end-to-end MERN stack development with RESTful API design, JWT authentication, and MongoDB schema architecture. Hands-on with ML pipelines, HDBSCAN clustering, and LLM API integration (Google Gemini). Active competitive programmer on LeetCode, Codeforces, and CodeChef. Seeking internship or entry-level roles in software development or AI/ML engineering.

EDUCATION

Qualification	Institution	Board/University	Year	CGPA/%
B.Tech – CSE (AIML)	VNR VJIET	JNTUH	2024–2027	8.25
Diploma (CSE)	GOVT. Polytechnic, Siddipet	TSSBTET	2021–2024	9.1
SSC	MJPTBC Residential School	SSC Board	2021	10.0

TECHNICAL SKILLS

Programming Languages	C, C++, Python, Java
Web Development	HTML5, CSS3, JavaScript (ES6+), React.js, Node.js, Express.js, RESTful API Design & Integration
Databases	MongoDB, PostgreSQL (Supabase)
AI / Machine Learning	End-to-End ML Pipelines, Feature Engineering, Model Evaluation, HDBSCAN Clustering, Embeddings, LLM API Integration
Core CS	Data Structures & Algorithms, OOP, Operating Systems
Tools & Platforms	Git, GitHub, VS Code, Anti gravity, Google Colab, Postman

PROJECTS

AI-Powered Autonomous Learning Scheduler – Full Stack ML System

FastAPI, PostgreSQL, XGBoost, LightGBM, Scikit-learn, Ollama, ChromaDB, React.js

- Built an AI-driven learning platform that generates personalized study schedules based on student performance, stress levels, and learning behavior.
- Designed a multi-agent ML system (Progress, Motivation, Reschedule, Profiling) for prediction, clustering, and adaptive scheduling.
- Developed a RAG-based local chatbot using ChromaDB and Ollama (Llama 3.2) for syllabus-aware Q&A with zero external API cost.
- Implemented an event-driven backend using FastAPI for async ML inference and real-time schedule updates.
- Used XGBoost and LightGBM with SHAP interpretability for explainable student performance prediction and insights.

Semantic Entropy File System (SEFS) – AI-Powered File Organizer

Python, HDBSCAN, Google Gemini API, Machine Learning, File System Monitoring

- Built an AI-powered OS-level file organization system that replaces static folders with dynamic semantic clustering using HDBSCAN for improved file retrieval and organization.
- Integrated Google Gemini API for real-time embedding generation and enabled bidirectional synchronization between semantic clusters and the local filesystem.
- Developed a live interactive 2D node-graph visualization to represent file relationships, updating dynamically with re-clustering events.
- Implemented event-driven file system monitoring to detect changes and trigger automatic semantic reorganization.

College Management System – MERN Stack Application

React.js, Node.js, Express.js, MongoDB, JWT, bcrypt

- Built a MERN app with 3 role-based access levels (Admin, Teacher, Student) for streamlined college administration.
- Implemented secure authentication using JWT and bcrypt.
- Developed RESTful APIs with Express.js and integrated them into a responsive React frontend.

BlogNest – Blogging Application

React.js, Node.js, Express.js, MongoDB

- Developed a full-stack blogging platform with user authentication and complete CRUD operations for blog posts.
- Implemented registration and login workflows with secure authentication, along with MongoDB schema design and RESTful API endpoints for frontend-backend communication.
- Gained hands-on experience in React state management, asynchronous API handling, and Express middleware implementation.

Certifications

- React Bootcamp – LetsUpgrade (in collaboration with NSDC & IITM EduTech), June 2025.
- Silver Certificate – Smart Interviews (Data Structures & Algorithms), Global Rank 4121 / 50,000+.
- Problem Solving (Intermediate) – HackerRank.
- Python Programming Course – Udemy (Course Completion Certificate).

Achievements

Academic

- Achieved **ECET Integrated Rank 311** and **Branch Rank 179** in Computer Science.
- Secured 3rd place in School Level Science fair

Co-curricular

- Secured **3rd Place** in the *Synthetic Data Creation Hackathon* conducted by Krithomedh, Dept. of CSE-AIML & IoT, VNRVJIET (Feb 2026).
- Participated in *Smart India Hackathon (SIH)*.
- Participated in *VIBE Coding Hackathon*.
- Attended workshop on *Agentic AI and AI Tools*.
- Solved **500+** problems on **LeetCode**, strengthening Data Structures & Algorithm skills.

Extracurricular

- Secured **1st Place** in District Level Chess Competition conducted by *MJP Society Sports & Games* during 9th Standard.
- Participated in multiple drawing competitions at School Level

Strengths

- Team Work
- collaborative
- communication
- Consistency
- Adaptability
- Critical Thinking
- Structured Problem Solving

Hobbies

- Chess
- Running
- Meditation
- Traveling
- Exploring space and universe concepts

Personal Information

Date of Birth : 20-06-2005	Languages Known : English, Telugu
Father's Name : M. Ramesh	Nationality : Indian
Address : H.No: 1-149, Kamalapur (505102), Hanamkonda, Telangana	

Declaration

I hereby declare that the above mentioned information is true to the best of my knowledge and that I will be responsible for any deviation from the truth of these facts.

Place: Hyderabad

Date: February 2026
